Ministerial Conference Tenth Session Nairobi, 15-18 December 2015

MINISTERIAL DECLARATION ON THE EXPANSION OF TRADE IN INFORMATION TECHNOLOGY PRODUCTS

NAIROBI, 16 DECEMBER 2015

1. We, the Ministers representing the following Members of the World Trade Organization ("WTO")

Albania Malaysia Mauritius Australia Canada Montenegro China New Zealand Colombia Norway **Philippines** Costa Rica European Union Singapore Guatemala Switzerland¹

Hong Kong, China Separate Customs Territory of Taiwan,

Iceland Penghu, Kinmen and Matsu

Israel Thailand
Japan United States

Korea

(hereinafter referred to as "Participants") hereby recall and endorse the Declaration on the Expansion of Trade in Information Technology Products² (hereinafter referred to as "Declaration"), open it for acceptance pursuant to paragraph 9 of the Declaration and announce the conclusions described below, as provided for in the Declaration.

- 2. The Participants approve the results of the review process described in paragraph 5 of the Declaration, as reflected in the schedules contained in G/MA/W/117³, which were submitted by each Participant and have been reviewed and approved on a consensus basis.
- 3. The Participants acknowledge that, in accordance with the criteria established in paragraph 7 of the Declaration, approved schedules represent approximately 90% of the world trade in the products covered by the Declaration, and, therefore, that each Participant will implement the tariff elimination commitments as set forth in paragraphs 3 and 6 of the Declaration and the approved schedules subject to the completion of domestic procedural requirements, which may, for greater certainty, include proceedings necessary for acceptance of international obligations. Members discussed the potential for future shifts in trade in the context of the critical mass after paragraphs 3 and 6 of the Declaration have been implemented by participants. It was agreed that an appropriate opportunity shall be found to discuss the issue in the future, if such circumstances arise, without prejudice to any outcome of the discussion.
- 4. The Participants recall paragraph 9 of the Declaration, and continue to welcome any WTO Member which is not a Party to the Declaration to notify the WTO Director-General of its acceptance to undertake the commitments in the Declaration and become a Party to the Declaration.

General Council Original: English

DECLARATION ON THE EXPANSION OF TRADE IN INFORMATION TECHNOLOGY PRODUCTS

COMMUNICATION FROM THE EUROPEAN UNION

The following communication, dated 28 July 2015, is being circulated at the request of the Delegation of the European Union.

The following Members of the World Trade Organization ("WTO") which have agreed on the expansion of world trade in information technology products ("parties").

Albania Australia Canada China Costa Rica European Union Guatemala Hong Kong, China

Iceland Israel Japan Korea

Malaysia Montenegro New Zealand Norway **Philippines** Singapore Switzerland¹

Separate Customs Territory of Taiwan,

Penghu, Kinmen and Matsu

Thailand **United States**

Declare as follows:

- Each party shall bind and eliminate customs duties and other duties and charges of any kind, within the meaning of Article II:1(b) of the General Agreement on Tariffs and Trade 1994, as set forth below, with respect to the following:
 - all products classified with Harmonized System ("HS") 2007 sub-headings listed in (a) Attachment A to this Declaration; and
 - (b) all products specified in Attachment B to this Declaration, whether or not they are included in Attachment A.

Staging

The parties shall apply three year staging in four equal annual reductions of customs duties, beginning in 2016 and concluding in 2019, as standard staging, unless otherwise agreed by the

¹ On behalf of the customs union of Switzerland and Lichtenstein.

parties, recognizing that extended staging of reductions may be necessary in limited circumstances. The reduced rate should in each stage be rounded off to the first decimal. Each party shall incorporate commitments on staging for each product into its Schedule of Concessions to the General Agreement on Tariffs and Trade 1994 ("Schedule of Concessions").

Implementation

- 3. Unless otherwise agreed by the parties, and subject to the completion of domestic procedural requirements, each party shall eliminate all customs duties and other duties and charges of any kind on products listed in the Attachments as follows:
 - (a) elimination of customs duties in equal steps, the first such rate reduction effective no later than 1 July 2016, the second such rate reduction no later than 1 July 2017, the third such rate reduction no later than 1 July 2018, and the elimination of customs duties shall be completed effective no later than 1 July 2019; and
 - (b) elimination of such other duties and charges of any kind, within the meaning of Article II:1(b) of the General Agreement on Tariffs and Trade, 1994, shall be completed by 1 July 2016.

Accelerated implementation

4. The parties encourage autonomous immediate elimination of customs duties or accelerated implementation prior to the dates set out in paragraph 3 above, for instance for products with relatively low customs duties.

Scheduling timeframe

- 5. As early as possible, and no later than 30 October 2015, each party shall provide all other parties with a draft schedule containing (a) the details concerning how the appropriate duty treatment shall be provided in its Schedule of Concessions and (b) a list of detailed HS subheadings involved for products specified in Attachment B, which shall also include a headnote stating that such products shall be provided duty-free treatment wherever they are classified in the HS. Each draft schedule shall be reviewed and approved by the parties on a consensus basis taking into account the concerns expressed by the parties in the negotiations. This review process should be completed no later than 4 December 2015.
- 6. After this review process has been completed for any such draft schedule of a party, that party shall submit its approved schedule, subject to the completion of domestic procedural requirements, as a modification to its Schedule of Concessions, in accordance with the Decision of 26 March 1980 on Procedures for Modification and Rectification of Schedules of Tariff Concessions (BISD 27S/25).
- 7. Each party shall implement paragraphs 3 and 6 of this Declaration once the parties review and approve on a consensus basis draft schedules that represent approximately 90 per cent of world trade² in the products covered by this Declaration.

Format of draft schedules of concessions

- 8. In order to implement its binding and elimination of customs duties and other duties and charges of any kind on products listed in the Attachments, each party's modifications to its Schedule of Concessions shall:
 - (a) in the case of products classified with HS 2007 subheadings listed in Attachment A, create, where appropriate, sub-divisions in its Schedule of Concessions at the national tariff line level; and

² To be calculated by the WTO Secretariat and communicated to the parties on the basis of the most recent data available.

(b) in the case of the products specified in Attachment B, attach an annex to its Schedule of Concessions including all products in Attachment B, which is to specify the detailed tariff classification for those products at either the national tariff line level or the HS 6digit level.

Acceptance

9. The Declaration shall be open for acceptance by all WTO Members. Acceptance shall be notified in writing to the WTO Director-General who shall communicate it to all parties.

Non-tariff barriers

10. The parties agree to intensify consultations concerning non-tariff barriers in the information technology sector. To this effect, the parties support the possible development of an upgraded work programme on non-tariff barriers.

Final considerations

- 11. Parties shall meet periodically, and at least one year prior to regular amendments to the Harmonized System nomenclature by the World Customs Organization, and no later than January 2018, to review the product coverage specified in the Attachments and consider whether, in the light of technological developments, experience in applying the tariff concessions, or changes to the HS nomenclature, the Attachments should be updated to incorporate additional products.
- 12. The parties recognize that the results of these negotiations involve concessions that should be taken into account in ongoing multilateral non-agricultural market access negotiations within the framework of the Doha Development Agenda.

Attachments to this Declaration:

- Attachment A lists the HS 2007 subheadings or parts thereof to be covered by this Declaration.
- Attachment B lists specific products to be covered by this Declaration wherever they are classified in the HS 2007.

ATTACHMENT A

Item	HS 2007	ex *	Product Description
001	350691	ex	Optically clear free-film adhesives and optically clear curable liquid adhesives of a kind used solely or principally for the manufacture of flat panel displays or touch-sensitive screen panels
002	370130		Other plates and film, with any side exceeding 255 mm
003	370199		Other
004	370590		Other
005	370790		Other
006	390799	ex	Thermoplastic liquid crystal aromatic polyester copolymers
007	841459	ex	Fans of a kind used solely or principally for cooling microprocessors, telecommunication apparatus, automatic data processing machines or units of automatic data processing machines
800	841950	ex	Heat exchange units made of fluoropolymers and with inlet and outlet tube bores with inside diameters measuring 3 cm or less
009	842010	ex	Roll laminators of a kind used solely or principally for the manufacture of printed circuit substrates or printed circuits
010	842129	ex	Liquid filtering or purifying machinery and apparatus made of fluoropolymers and with filter or purifier membrane thickness not exceeding 140 microns
011	842139	ex	Filtering or purifying machinery and apparatus for gases, with stainless steel housing, and with inlet and outlet tube bores with inside diameters not exceeding 1.3 cm
012	842199	ex	Parts of filtering or purifying machinery and apparatus for liquids, made of fluoropolymers and with filter or purifier membrane thickness not exceeding 140 microns; parts of filtering or purifying machinery and apparatus for gases, with stainless steel housing, and with inlet and outlet tube bores with inside diameters not exceeding 1.3 cm
013	842320	ex	Scales for continuous weighing of goods on conveyors using electronic means for gauging weights
014	842330	ex	Constant weight scales and scales for discharging a predetermined weight of material into a bag or container, including hopper scales, using electronic means for gauging weight
015	842381	ex	Other weighing machinery, having a maximum weighing capacity not exceeding 30 kg using electronic means for gauging weight
016	842382	ex	Other weighing machinery, having a maximum weighing capacity exceeding 30 kg but not exceeding 5,000 kg using electronic means for gauging weight, excluding machines for weighing motor vehicles
017	842389	ex	Other weighing machinery, having a maximum weighing capacity exceeding 5,000 kg using electronic means for gauging weight
018	842390	ex	Parts of weighing machinery using electronic means for gauging weight, excluding parts of machines for weighing motor vehicles
019	842489	ex	Mechanical appliances for projecting, dispersing, or spraying of a kind used solely or principally for the manufacture of printed circuits or printed circuit assemblies
020	842490	ex	Parts of mechanical appliances for projecting, dispersing, or spraying of a kind used solely or principally for the manufacture of printed circuits or printed circuit assemblies
021	844230		Machinery, apparatus, and equipment
022	844240		Parts of the foregoing machinery, apparatus or equipment
023	844250		Plates, cylinders and other printing components; plates, cylinders and lithographic stones, prepared for printing purposes (for example, planed, grained or polished)
024	844331		Machines which perform two or more of the functions of printing, copying or facsimile transmission, capable of connecting to an automatic data processing machine or to a network
025	844332		Other, capable of connecting to an automatic data processing machine or to a network
026	844339		Other
027	844391		Parts and accessories of printing machinery used for printing by means of plates, cylinders and other printing components of heading 84.42
028	844399		Other
029	845610	ex	Machine tools operated by laser or other light or photon beam processes of a kind used solely or principally for the manufacture of printed circuits, printed circuit assemblies, parts of heading 8517, or parts of automatic data processing machines
030	846693	ex	Parts and accessories of machine tools operated by laser or other light or photon beam processes of a kind used solely or principally for the manufacture of printed circuits, printed circuit assemblies, parts of heading 8517, or parts of automatic data processing machines; Parts and accessories of machine-tools operated by ultrasonic processes of a kind used solely or principally for the manufacture of printed circuits, printed circuit

Item	HS	ex	Product Description

170 903020 Oscilioscopes and osciliographs	175	903020		Oscilloscopes and oscillographs

Item	HS 2007	ex *	Product Description
176	903031		Multimeters without a recording device
177	903032		Multimeters with a recording device
178	903033	ex	Other, without a recording device, excluding resistance measuring instruments
179	903039		Other, with a recording device
180	903084		Other, with a recording device
181	903089		Other
182	903090		Parts and Accessories
183	903110		Machines for balancing mechanical parts
184	903149		Other
185	903180		Other instruments, appliances and machines
186	903190		Parts and accessories
187	903220		Manostats
188	903281		Hydraulic or pneumatic
189	950410		Video games of a kind used with a television receiver
190	950430	ex	Other games, operated by coins, banknotes, bank cards, token, or by any other means of payment, other than automatic bowling equipment and games of chance that immediately return a monetary award
191	950490	ex	Video game consoles and machines, other than those of subheading 950430

^{*} Partially covered subheadings are identified by the symbol "ex".

ATTACHMENT B

192	Multi-component integrated circuits (MCOs): a combination of one or more monolithic, hybrid, or
192	multi-chip integrated circuits (MCOS): a combination of one of more monoiting, hybrid, of multi-chip integrated circuits with at least one of the following components: silicon-based sensors,
	actuators, oscillators, resonators or combinations thereof, or components performing the functions of
	articles classifiable under heading 8532, 8533, 8541, or inductors classifiable under heading 8504,
	formed to all intents and purposes indivisibly into a single body like an integrated circuit, as a
	component of a kind used for assembly onto a printed circuit board (PCB) or other carrier, through the
	connecting of pins, leads, balls, lands, bumps, or pads.
	For the purpose of this definition the following expressions mean:
	1. "Components" may be discrete, manufactured independently then assembled onto the rest of the
	MCO, or integrated into other components.
	2. "Silicon based" means built on a silicon substrate, or made of silicon materials, or manufactured
	onto integrated circuit die.
	(a). "Silicon based sensors" consist of microelectronic or mechanical structures that are created in the
	mass or on the surface of a semiconductor and that have the function of detecting physical or
	chemical quantities and transducing these into electric signals, caused by resulting variations in
	electric properties or displacement of a mechanical structure.
	"Physical or chemical quantities" relates to real world phenomena, such as pressure, acoustic
	waves, acceleration, vibration, movement, orientation, strain, magnetic field strength, electric
	field strength, light, radioactivity, humidity, flow, chemicals concentration, etc.
	3(b). "Silicon based actuators" consist of microelectronic and mechanical structures that are created in
	the mass or on the surface of a semiconductor and that have the function of converting electrical
	signals into physical movement.
	3(c). "Silicon based resonators" are components that consist of microelectronic or mechanical
	structures that are created in the mass or on the surface of a semiconductor and have the
	function of generating a mechanical or electrical oscillation of a predefined frequency that depends
	on the physical geometry of these structures in response to an external input.
	3(d). "Silicon based oscillators" are active components that consist of microelectronic or mechanical
	structures that are created in the mass or on the surface of a semiconductor and that have the
	function of generating a mechanical or electrical oscillation of a predefined frequency that depends
	on the physical geometry of these structures.
193	Light-Emitting Diode (LED) Backlights modules, which are lighting sources that consist of one or
	more LEDs, and one or more connectors and are mounted on a printed circuit or other similar substrate,
	and other passive components, whether or not combined with optical components or protective diodes,
	and used as backlights illumination for liquid crystal displays (LCDs)
194	Touch-Sensitive Data Input Devices (so-called touch screens) without display capabilities, for
	incorporation into apparatus having a display, which function by detecting the presence and location of
	a touch within the display area. The sensing of touch may be obtained by means of resistance,
105	electrostatic capacity, acoustic pulse recognition, infra-red lights, or other touch-sensitive technology
195	Ink cartridges (with or without an integrated print head) for insertion into apparatus of HS
	subheadings 844331, 844332 or 844339, and incorporating mechanical or electrical components;
	thermoplastic or electrostatic toner cartridges (with or without moving parts) for insertion into apparatus of HS subheadings 844331, 844332 or 844339; solid ink in engineered shapes for insertion
	into apparatus of HS subheadings 844331, 844332 or 844339
196	Printed matter which grants the right to access, install, reproduce or otherwise use software (including
190	games), data, internet content (including in-game or in-application content) or services, or
	telecommunications services (including mobile services)**
197	Self-adhesive circular polishing pads of a kind used for the manufacture of semiconductor wafers
198	Boxes, cases, crates and similar articles, of plastic, specially shaped or fitted for the conveyance or
170	packing of semiconductor wafers, masks, or reticles, of subheading 392310 or 848690
199	Vacuum pumps of a kind used solely or principally for the manufacture of semiconductors or flat panel
199	displays
200	Plasma cleaner machines that remove organic contaminants from electron microscopy specimens and
	specimen holders
201	Portable interactive electronic education devices primarily designed for children

^{**} The tariff elimination for printed matter shall only affect the rights and obligations with respect to trade in goods, that is, it shall not affect market access other than tariffs of the participants. Nothing in the ITA expansion agreement shall prevent an ITA member from regulating the content of such goods, including Internet content, among other things. Nothing in the ITA expansion agreement shall affect a member's market access rights and obligations on trade in services or prevent a member from regulating its services market.
