

# **International Economic and Technology Cooperation Assistance Available from the MOEA**

## **Content**

	page
1. Bureau of Standards, Metrology and Inspection (BSMI), MOEA	
(1) Training courses for planning and implementing inspection schemes of mechanical, electrical and electronic products	1
(2) Training courses on establishing calibration human resources in the field of metrology and related matters	3
(3) Inspection techniques training programs in field of vegetables, crops, tea, EMC (Electromagnetic Compatibility) and household appliances	4
(4) Standards, technical regulations, conformity assessment and metrology	6
2. Water Resources Agency (WRA), MOEA	
Promotion strategies and technology for rainwater harvesting system, “Smart Saver Logo” and integrating management of rural water drainage systems	8
3. Department of Commerce, MOEA	
APEC TEL (Telecommunications and Information Working Group) PKI (Public Key Infrastructure)/e-Authentication Training Program	10
4. Taiwan Power Research Institute, Taiwan Power Company	
(1) Power System Monitoring and Control	11
(2) Power quality monitoring, analysis and improvement	12
(3) Coal ash utilization	13
(4) Life assessment and failure analysis of boilers and steam turbines in sub-critical fossil power units	15
(5) Training courses in nondestructive testing (NDT), rotating machine balance, and generator and gas turbine inspection	17

(6) Evaluation of investments in hydropower, thermal power and wind power development projects	18
5. Taiwan Refining & Manufacturing Research Institute, CPC Corporation	
Process for producing benzene with ultra-low nitrogen content	19
6. Agri-Business Division, Taiwan Sugar Corporation	
Phalaenopsis production systems	20
7. Aircraft and Avionics Maintenance Department	
(1) Automatic integrated test system	21
(2) Tropical cyclone and severe weather observation airplane and data collection system	22
(3) Aerial target services	23
(4) Automobile i-service suite	24
8. Taiwan External Trade Development Council (TAITRA)	
(1) Online trade promotions	25
(2) Cooperation with world-class logistics companies in the area of international logistics	27
(3) Joint exploration of the mainland Chinese market	28
(4) Assistance in forming cooperative ties with Taiwan in machinery, turnkey equipment, IT, and other key sectors	30
9. Industrial Technology Research Institute	
(1) Biomarker CRO (Contract Research Organization) Services	31
(2) Skin repigmentation and bone regeneration using cellular therapy	32
(3) Animal disease models for anti-asthma, anti-arthritis and anti-liver fibrosis compound evaluation	33
(4) HDL and firmware design for internet network protocols	34
(5) Home automation, home security, home healthcare and home multimedia	35

(6) Wastewater treatment technologies	37
(7) Optically measured electromagnetic field sensing technology	38
(8) Mode locker for fiber laser technology	39
(9) Design and construction of high-pressure natural gas flow measurement system	40
(10) Automatic and computerized manufacturing system planning and implementation	41
(11) Transfer of wind turbine control system technology	42
(12) EDM (electrical discharge machine) control system design and process development	43
(13) Vehicle product design, testing and development	44
(14) Flexible capacitive micro-machined ultrasonic transducers (fCMUTs)	46
(15) RFID (Radio Frequency Identification) performance testing	47
(16) LCD (Liquid Crystal Display) process and verification services	49
10. Metal Industries Research and Development Centre	
(1) Metal stamping die forming technology	50
(2) CO <sub>2</sub> dry cleaning technology	51
11. Taiwan Textile Research Institute	
Professional training courses, policy planning, and technical counseling in the textile industry	52
12. China Productivity Center	
SME management consultancy services and training	54
13. Food Industry Research and Development Institute (FIRDI)	55
(1) Technological supervision and technical training in food sanitation, safety, quality control and quality assurance	
(2) Technological supervision and technical training in cultivation, preservation, identification and quality control of microorganisms, cell lines and genomic resources	

- (3) Technological supervision and technical training in cottage food processing enterprises
- (4) Technological supervision and technical training in food processing and manufacturing

14. Institute for Information Industry

- (1) Wireless sensor network solutions 58
- (2) WiMAX software solution 60
- (3) Mobile communication and applications 62
- (4) E-government service platform 64
- (5) E-government solutions 66
- (6) Healthcare information system (HIS) 68
- (7) Intelligent transport systems 70
