

International Economic and Technology Cooperation Requested by the MOEA

Content		Page
1. Bureau of Standards, Metrology and Inspection (BSMI), MOEA		
(1) Sharing of experience in implementing the TBT (Technical Barriers Trade) Agreement		1
(2) Inspection techniques for checking the safety of electrical medical equipment and safety parts used on electrical equipment		3
(3) Sharing of experience on the issue of intellectual property rights (IPRs) involved in standardization activities		4
(4) Sharing of experience in preparing standardization education textbooks		5
2. International Trade Commission, MOEA		
Economic model and its application in U.S. safeguard investigation		6
3. Department of Generation, Taiwan Power Company		
Exchange of technical information on the improvement of efficiency, availability and reliability for thermal and hydro power generating units		7
4. Taiwan External Trade Development Council (TAITRA)		
(1) TAITRA invites overseas businesses to visit or participate trade shows in Taipei.		8
(2) Development of trade opportunities offered by the European Bank for Reconstruction and Development (EBRD), the Asian Development Bank (ADB), and the purchasing agencies of foreign governments		9
5. Industrial Technology Research Institute (ITRI)		
(1) IL-1 transgenic mice		11
(2) Graphene, CNT (Carbon Nano Tube)		12

(3) Micro energy harvester	13
(4) Micro scanning mirror	14
(5) Micro speaker	15
(6) Micro gyroscope	16
(7) Collaboration in high-speed compressors	17
(8) Spontaneous determination of five degrees of freedom for machine tool	18
(9) Multi-service radio over fiber (ROF) technology	19
(10) Application of Intelligent Decision Support System (I-DSS) in manufacturing systems	20
(11) Technology Transfer of technology for wind turbine control systems	21
(12) Design and manufacturing techniques for direct driver motors	22
