

IDB technical specialist takes part in Taiwan-German TCP

Lin Wei-chi, a technical specialist at the Ministry of Economic Affairs' Industrial Development Bureau, took part in the "German Industry Upgrading and Transformation Policies and Related Industry Accompanying Measures Research and Study Project" from June 27 to July 7, 2016. While in Germany for the study project under the Taiwan-German Technical Cooperation Program, Lin visited the Association of German Chambers of Commerce and Industry (DIHK), German Federation of Industrial Research Associations, Institute for Futures Studies and Technology Assessment, and various other government agencies, industry associations and research institutes.

Lin meets with Dr. Sven Christoph Hallscheidt, director of DIHK's Services Department, during a visit to the association in Berlin on June 30, 2016.

Lin poses for a photo with municipal official Natalya Hermann-Kopotilov during a visit to the Berlin city government on July 1, 2016.
