

## State enterprise commission official takes part in Taiwan-Canada TCP

Huang Yu-Wen, a management planner at the Ministry of Economic Affairs's State-owned Enterprise Commission, took part in a study project called "Smart City and IoT Applications in Canada" Aug. 18-30, 2016.

While in Canada for the project under the Taiwan-Canada Technical Cooperation Program (TCP), Huang visited Niagara Falls Wastewater Treatment Plant, PowerStream Inc., the Ontario Ministry of Energy, MaRS, Invest Ottawa, Hydro Ottawa, Natural Resources Canada, Environment and Climate Change

Canada, Hydro Quebec, and several other federal and provincial government agencies, as well as related enterprises and facilities.

The aim of the study program is to gain a better understanding of Canada's successful experience in smart city and energy policy planning, to serve as a reference in Taiwan's future planning for smart city, energy, water system, land, and other related development.

The SEC's responsibilities include supervising the operation of four state-owned firms, including Taiwan Power Co., Taiwan Sugar Corp., Taiwan Water Supply Corp., and CPC Corporation, Taiwan.
